

PRIYADHARSHINI R

UI/UX Designer | Product Design | AI-Assisted Design Workflows

9500017718 | priyadharshinirajkumar87@gmail.com | [linkedin.com/in/priyadharshinirajkumar197](https://www.linkedin.com/in/priyadharshinirajkumar197) | github.com/priyadharshinirajkumar197 | priyadharshinir.framer.website

SUMMARY

UI/UX Designer who has independently shipped two live, deployed products end-to-end — from user research through high-fidelity UI — across four internships spanning product design, digital communications, and marketing. Skilled in translating user research into wireframes, prototypes, and high-fidelity interfaces, with working knowledge of usability principles and AI-assisted design workflows including Figma, Google Stitch, and UX Pilot.

SKILLS

UX Design: User Research, Usability Testing, Information Architecture, User Flows, Wireframing

UI Design: Prototyping (Low-to-High Fidelity), Visual Hierarchy, Typography, Color, Layout, Design Systems

Tools: Figma, FigJam, Framer, Canva, Google Stitch, UX Pilot

AI Workflow: AI-Assisted Ideation, Prompt Engineering, Rapid Prototyping, Generative AI Workflows

Programming & Web: HTML, CSS, SQL, Frontend Development

WORK EXPERIENCE

UI/UX Designer Intern — Spotnxt

Jul 2025 – Dec 2025

- Contributed to UX design of an AI-powered SaaS platform for optimizing Meta Ads (Facebook & Instagram) workflows
- Simplified complex advertising data into intuitive dashboards; iterated high-fidelity screens in Figma, improving clarity and usability

UI/UX Development Intern — Unicq Marketing

Jan 2026 – Mar 2026

- Designed the company's brand website end-to-end and conducted UX research, including competitive analysis, to strengthen brand essence
- Built strategy decks, designed additional web pages, and created UI for marketing campaigns and ad creatives, aligning visual design with brand identity

Social Media Management, Digital Communication & Web Design Intern — TECC, Chennai

Jun 2026 (1 month)

- Contributed social media content and digital communication materials for TECC's anniversary program, supporting official educational and diplomatic initiatives, and assisted with web updates for event documentation

Canva Template Designer Intern — Pacific Creation

Jan 2025 – Apr 2025

- Designed clean, reusable Canva templates for students, startups, and small businesses using brand kits and animations — several were published and sold

PROJECTS

EVCare – Predictive EV Health Monitoring Platform (Independent Project)

- Independently designed and developed EVCare end-to-end, from UX research to a deployed live website with a complete UX case study
- Restructured information hierarchy to close usability gaps in EV diagnostics data, applying AI-assisted ideation to speed up prototyping in Figma

BloodBridge – Smart Blood Bank Prediction System (Team Project, 3 members)

- Sole owner of the product concept, frontend design, and UI for BloodBridge, a real-time blood availability tracking and donor-recipient matching platform, shipped as a deployed live site with a full UX case study
- Applied Google Stitch for AI-assisted ideation and prototyping; conducted user research and optimized search by blood group, location, and urgency for fast decision-making

UrbanNest – Relocation Assistance Platform (In Progress)

- Structured end-to-end user flows for property discovery, comparison, and shortlisting to simplify relocation planning
- Developed a high-fidelity UI in Figma, applying UX Pilot to accelerate prototyping, with emphasis on clear navigation and reduced decision fatigue

Additional UI/UX work samples: [Figma – Additional Projects](#)

CERTIFICATIONS

Fundamentals of UI/UX Design – Microsoft UX Design | Generative AI for UX Designers – Coursera | Usability Engineering – NPTEL, IIT Guwahati | UX Design Introduction Job Simulation – Lloyds Banking Group | UI/UX Training – Systemtron & Kevell Guru

ACHIEVEMENTS

- Completed four professional internships across UI/UX design, communications, and marketing while maintaining strong academics
- Placement Coordinator (2025–Present), leading coordination between students, faculty, and recruiters
- Built and maintain an independent portfolio showcasing end-to-end UX case studies

EDUCATION

Bachelor of Electronics and Communication Engineering

Expected 2027

Meenakshi Sundararajan Engineering College, Chennai | CGPA: 8.38
